Dear Prime Minister,

I have not heard from the Department of Education as yet, and have had to write to the Regulator of my profession again; please find a copy attached.

My 5 year case study of Child X has been partly treatment and support; partly as a fly on the wall as the family have lived through this trauma, real time; and partly asking questions of those who had and still have a duty of care for them. My conclusions are alarming, a catastrophic failure.

One has to assume, given the evidence, that this is not an isolated incident, and needs serious investigation.

Please can you let me know when this is going to happen.

Yours sincerely,

Howard Lamb
