Dear Regulator,

In my last e-mail some months ago, I asked for all the paperwork and e-mails, as well as who was involved in the debacle that you called a complaint procedure. I have still not received anything, and you are well over the legal time limit.

Please could you explain why you feel not compelled to comply with the laws of this country? Also, please supply the names of your handlers at the Privy Council so that I can communicate with them over this Regulator breaking of laws which I have clearly been privy to over the past couple of years.

Yours sincerely,

Howard Lamb  
DC
