3rd October, 2017

Leader of Her Majesty's Opposition,
The Rt. Hon. Jeremy Corbyn,
House of Commons,
London,
SW1A 0AA

Dear Mr Corbyn,

I have written to the Prime Minister on four separate occasions about the systematic abuse of a child over a long number of years by the state.

This child was forced through a system that did not care about his disabilities and severely traumatised him. It then blamed him for being responsible, which of course he wasn't.

Please view my patients' website at www.justiceforautism.co.uk which contains all of the information that you will need at this stage.

If you then feel it is appropriate, please could you ask the Prime Minister why she has avoided a criminal investigation into widespread child abuse by the system of thousands of mentally abused children through non-diagnosis and wrong-diagnosis. Subsequently they do not get the facilities and help that they and their families need.

Please find attached my correspondence to the Prime Minister and No.10's response directly and from both the Departments of Health and Education.

The website contains three archives:

- 1). The last 20 months correspondence on the neglect.
- 2). Correspondence to my Regulator and Tribunal for the child which was not disputed at any time.
- 3). Another matter concerning my Regulator's inability to function as they should.

I look forward to hearing from you.

Yours sincerely,

Howard Lamb
DC
