Dear Rosalyn,

Re: Lack of complaints procedure

It has been over one year since I was removed from the register, illegally, for political reasons, all to cover-up the lack of action taken when child abuse was brought to the attention of the Regulator, General Chiropractic Council, and to the British Chiropractic Association. This is the most possible explanation for what has gone before so I assume that it was aided and abetted by Hertfordshire County Council.

You have been the Regulator for nearly one year and I do not seem to be any closer to resolving this matter.

Due to this I have no alternative but to enact your Complaints Protocols and Procedures, and expect full details of them promptly.

Yours sincerely,

Howard Lamb
DC
