20th December, 2017

Dear Rosalyn,

Thank you for your confirmation that these are the same protocols and procedures as for your predecessor and Chair; yet it is clear in the paperwork that they did not take that opportunity.

On a subject as important as child abuse, by an individual or by the State, there must always be an investigation to see whether the complaint is valid or not.

Maybe we will start to get to the bottom of why this did not happen.

Yours sincerely,

Howard Lamb
DC
