Dear Chair,

I am writing to you today on a serious constitutional matter. The Prime Minister has refused to respond to a complaint. She has not carried out her protocols and procedures as per her own code of conduct, but rather is seemingly oblivious to the laws of the land. Please read my last two unanswered letters. All of our other communications are on my website www.justiceforautism.co.uk which is a chronology of much of what has been happening over the past 6 years. You will see that child x was wrongly diagnosed and labelled a naughty boy with bad parents rather than high functioning autism, ADHD and post-traumatic stress from the wrong treatment by social services, education, council and being out in the world in general.

This case is just one of countless thousands and needs to be seriously investigated due to the clear cover up (social services, education, council, BCA, GCC, Prime Minister's office and the Prime Minister) which has caused immense difficulties for the family. Can you please assist me in this regard?

The Prime Minister must resign for breaches of protocols, procedures and law. She has a clear conflict of interest as she suppressed this case as Home Secretary.

Justice must not just be seen to, but actually done.

H Lamb DC
