2<sup>nd</sup> December, 2019

Dear Prime Minister,

I am sorry to disturb you in the middle of your campaign. However this matter has to be on record for you or another to deal with after the election.

By now you will have heard about the Child X case and its ramifications to the system, which has removed rights from our most vulnerable children, restrained and mentally abused them through poor quality of staff, poor education, poor understanding, and entirely the wrong handling and attitude towards them.

If this is not enough your predecessors covered it up, as clearly shown on my patients' website [www.justiceforautism.co.uk](http://www.justiceforautism.co.uk)

I have been asking for this to be investigated but seemingly, whilst I have been viewed, the situation has not.

Please will you or another deal with this in the run-up to Christmas so that there is an end in sight for these children

Yours sincerely,

Howard Lamb  
DC
