2nd December, 2019

Dear Prime Minister,

I am sorry to disturb you in the middle of your campaign however this has to be on record for you or another to deal with after the election.

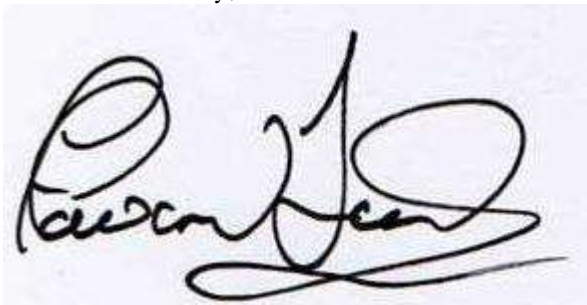

By now you will have heard about the Child X case and its ramifications to the system, who have removed rights from our most vulnerable children, restrained and mentally abused them through poor quality of staff, poor educational, poor understanding and entirely the wrong handling and attitude towards them.

If this is not enough your predecessors covered it up, as clearly shown on my patients website justiceforautism.co.uk.

I have been asking for this to be investigated but seemingly I have been viewed however the situation has not.

Please will you or another deal with this in the run in to Christmas, so there is an end in sight for these children.

Yours Sincerely,

Howard Lamb
DC
