29th December, 2021

Dear Mr Davie,

I write to you as the BBC is chartered to see both sides. Attached are multiple letters to the Right Honourable May and Johnson, plus two Attorney Generals. They contain serious complaints and allegations. Any other information that you may need is on my patient's website justiceforautism.co.uk What has happened to Child X is happening to thousands of others throughout the UK, historically and real time.

I have copied in Sky News and The Guardian who, like the Beeb, have an outstanding record for their work on autism. My hope is that you singly or backed up will ask the Government why there has been no transparent investigation of systemic child abuse. Strong words but I have walked through their systems over my 12 years, and they are not strong enough!

I believe the family who have all the proof in the paperwork, collected by the mother, would be grateful for some answers as up to now none have been forthcoming. They will appreciate any answers that you can get for them. Does politics or justice reign? I am sure that we will find out soon.

I am on a tight schedule so a quick yes or no would help, and either way we can move forward.

Yours sincerely,

Howard Lamb
