17th January, 2019

Dear Prime Minister,

I believe that this is my third letter to you on the subject of Child X and the catastrophic failure of the system to protect him.

I would hope that by now you have been fully briefed and have a good understanding of the enormity of the problem and the task ahead to change its future.

As for blame, once all the evidence has been gathered I am sure it will all become clear. To that end, once terms are met, I am your servant in all areas to help find the justice that we as a nation are revered for.

Please respond by the 31st January to clarify which page we are all on.

Yours respectfully,

Howard Lamb,
DC
