Dear Prime Minister,

You have not responded to my communications. With serious allegations of child abuse it is impossible for there not to have been some form of investigation. If proven wrong I would have heard by now. You are the only one who can sanction an investigation into yourself and your handling and subsequent cover up and perversion of justice.

This is clearly a criminal act, so respectfully, I must ask you to resign so that you can be investigated for the systemic abuse of autistic children and others with special needs on your watch.

Yours sincerely,

Howard Lamb
DC
