

Dear Prime Minister,

The Ministerial Code, as you will know, sets out rules and standards for government. They were a response to the erosion of ministerial accountability, to try and preserve public trust. Overseen by the Propriety and Ethics Group, part of the Cabinet Office, so not independent.

The Code states—ministers must behave in a way that upholds the highest standards of propriety (or morals). Upholding collective responsibility, be truthful and correcting mistakes or errors. Cooperate with scrutiny and be accountable. They should act entirely for public interest, not just their own party. All decision-making should be justified and informed. Information should only be restricted, for reason of public interest and not the government's. Honesty in all dealings, business and finally leading by example.

Ministers have to have any clearance for change from you to make a difference to the spectrum children who historically have been mentally, physically abused, brainwashed, often locked up without charge due to not being diagnosed and blamed as naughty instead of correct handling. This planned oversight has saved the treasury billions over many years. Your cover-up and aiding and abetting previous Prime Ministers, who had covered up for those before, has to be seen as a breach of your code due to criminality (perverting justice, aiding and abetting crime, and abuse of power). You have not responded to my previous communications. Neither have the police that are under your control. Clearly totalitarian, not democratic.

I have been involved with these children throughout my long career, particularly the past 12 years where I have been analysing your system to understand how and why it has gone so wrong.

I hope the reason for your breaches is that I have been annexed to the wrong department whose only interest is protecting your government rather than airing the truth. Please send details of the correct department so I can contact them and bring to an end the abuse of children with special needs to save money.

I look forward to a quick response.

Yours sincerely,

H Lamb
DC
